

Homework – Solving and Graphing Linear Inequalities

- 1) Solve the inequality and graph the solution
- 2) Express the domain (solution set) in interval notation

1) $4x - 1 > 7$

2) $3 - 2x \leq 1$

3) $3x + 5 > x + 7$

4) $-5x + 9 < 2(x - 6)$
